EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rick Klien on June 5, 2006.

The application has been amended as follows:

Claims 19-22 have been canceled.

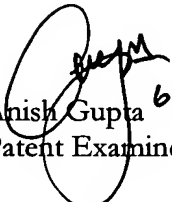

The following is an examiner's statement of reasons for allowance:

The prior art of Yallampalli et al. teach the treatment premature or preterm labor by the administration of CGRP/adrenomedullin. The prior art does not teach nor suggest that adrenomedullin, alone or in combination with CGRP, can be administered to individuals for inhibiting abnormal bradykinin induced myometrial contractions, as presently claimed. Further, taken as a whole, the prior art does not provide motivation, nor an expectation of success, that the teachings of Yallampalli et al. could be extrapolated to a method of inhibiting abnormal bradykinin induced myometrial contractions using adrenomedullin. Thus, the claims are both novel and unobvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
